Untrained mechanism diagnostic — no task-performance or energy claim
A Different regimes in the same continuous flow
Restoring (gain 1.5)
Regenerative + recovery (gain 3.0)
Safety margin x
Time
B Late trajectory in phase space
Unstable reference point
Recovery displacement z - z*
Safety margin x
C Long-horizon phase error accumulates
h = 1/16
h = 1/32
Declared diagnostic tolerance
Scaled state error vs. DOP853
Time
D Shared C1 boundary at x = 0; kappa = 1
Call C / (K + C)
Put P / K
Normalized operator
Safety margin x
